

DAMEN SAFETY WEEK 2024

Impressions from MDEM

Damen and all its member companies make significant efforts to ensure the safety and well-being of their employees. The program of this year's Safety Week included numerous seminars, lectures, exhibitions, experiences of Damen Group employees. Among the important topics of lectures and presentations were as follows: the impact of sun exposure on skin, the potential

hazards encountered while traveling, safe operation of work involving electrical objects.

MDEM Digital Platform Support Department played an important role in facilitating Safety Week preparations. Their contribution included the creation of visually appealing graphics, video editing, preparation of announcement articles

and other multimedia materials to reinforce the theme and guarantee on time announcement. In addition to that, they introduced innovative elements such as animated banners adding a dynamic dimension to the safety communication efforts. Moreover, they offered assistance to various divisions in generating materials tailored to their specific needs.

Oksana Petrova, Senior Content Manager of Digital Platform Support Department, noted: "Despite the dynamic agenda and diverse range of topics, the department ensured that all requests were promptly addressed. Other tasks

were rescheduled to prioritize the timely preparation of materials, demonstrating their commitment to effective collaboration and delivery. Their efforts guaranteed that the safety message was effectively communicated across all platforms in an aesthetically pleasing and engaging manner".

MDEM team always follows Damen values and "Safety first" for all of us. For MDEM colleagues and their families the general concept of safety has taken on a special meaning in view of the war. That is why we paid extra attention during Damen Safety Week to how we can work even more safely for ourselves and for our colleagues today. <<
